ADVERTORIAL & PROMOTIONAL FEATURE

The Global Indians continues to shine

Book presented to Vice President of India Venkaiah Naidu

The second edition of the Global Indians Book is a humble attempt to honour the contribution of extraordinary Indians in transforming lives globally. The 2017 edition features 21 personalities from diverse fields including political stalwarts, scientists, industry captains, social reformers, sports icons, film personalities and distinguished visionaries. It was not easy to select this elite list. After much deliberation, we settled upon 21 global Indians, who we believe best represent the values and ethos we associate with them and who are most prominent in their chosen fields. Each of them is an epitome of the Indian success story, and their profound influence, both within the profession and

outside it, is unquestionable. The fact that book features only 21 personalities, does not mean that other personalities who have not been featured in this edition or the earlier edition are in anyway less in stature or fame. Global Indians Book will be an ongoing activity that will strive to celebrate the Indian achievers who on the global front continue to set extraordinary examples. Even as you read this, some Indian in some part of the world is achieving a remarkable feat. It shall be our conscious and continuous endeavour to highlight these icons. However, in doing so, we would like to emphasise that it is the exceptional work of extraordinary Indians which makes the Global Indians possible.
