

Dear Globalite,

The coronavirus pandemic is affecting our families, economy, communities, and our way of life.

Our hearts go out to those who have been affected by the virus, either directly or indirectly and we extend our best wishes for their full recovery. We are inspired by the selfless health-care workers who are in the forefront working tirelessly to care for people in need. We are also concerned about the health and safety of our group's employees, their families and communities and want to assure you that the Global family is with you!

The fear of the virus and as it continues to further is raising ugliness in us. Our society is treating symptoms or positive test cases on COVID-19 as stigma. **This is wrong.** Anyone can test positive.

Here is a set of rules we must ask friends and family members to follow.

In the unfortunate event you or any of your family members, neighbour or friend becomes a victim, we need to help them and not resist or condemn them.

Global Foundation and GTL management will provide answers to your questions and / or suggestions on medical help. Most of all we will be willing to be a friend of yours. Each one of us have an obligation to do so for those who need our help for testing, physical isolation and treatment.

The rule book for is attached herewith.

Be rest assured our hand will always be there for anyone of you needing it.

Stay socially connected with us, as you practice physical distance. As Malcolm X once said, "When 'I' is replaced by 'we' even illness becomes wellness."

With Best Wishes,

Trustees
